### Diverger expands offer to assist advisers and accountants with their back office

**MAY 17, 2022:** Diverger Limited (Diverger), in line with a vision to be the market leading service provider to financial advisers and accountants, announces today expansion into providing back-office staff for advice and accounting practices.

In partnership with Atlas Outsourcing (Atlas), Diverger will be providing virtual administration and paraplanning services to its client network utilising degree qualified, competitively priced staff based in the Philippines and employed by Atlas.

Nathan Jacobsen, Managing Director Diverger said “The number one challenge facing practices, following growing demand for advice and significant regulatory complexity, is simply getting through the work. After conducting a market search, we have chosen Atlas as a quality provider and great cultural fit with our staff and clients. At Diverger we are advocates for flexibility and therefore delighted to be providing our network with more service choices in how they choose to operate.”

This service compliments and works alongside existing paraplanning and administration services operating across the Diverger network. Early demand is growing, with three clients onboard and nine practices in discussion.

Jason Cutrupi, Managing Director Atlas Outsourcing said “We are excited about this new partnership with Diverger who are one of the leading organisations in the Financial Services Industry. Atlas believes there are a number of synergies with both organisations and we look forward to providing great value and assistance to Diverger's accounting and adviser community.”
